

Club Safety

While on the SCBC complex, please follow the following safety rules, guidelines and recommendations.

- Children 12 and under must wear a properly secured, life jacket at all times, unless seated with their supervising adult in the clubhouse or on the dining deck.
- Running and rough play is not permitted on the complex.
- Swimming is permitted off the up and down river swim platforms, and off the beach, but no swimming is permitted off a docked boat, or swimming / drifting behind the docked boats.
- Be aware of the speed and direction of the current when heading out or docking your boat, and especially if swimming off the up or down river swim platforms. Life rings are in place for your use. If you find yourself caught by the current moving you away from the swim platform, consider going with the current and swim to shore rather than fighting the current.
- As our complex is all floating, when walking on the main walkways or fingers, always be aware of a possible wake from passing boats that may make the docks unstable as the wake passes.
- As a courtesy, members always help other members and guests when docking. If you notice a boat coming in, please make yourself available to assist.
- When you are finished using the BBQ please turn the propane off at the tank.
- Dogs must be on leash at all times, and under owners' control while on the complex. As a courtesy, dogs are not permitted in the clubhouse at any time, or on the complex where people are dining.
